- DAA
- OS
- AI
- Software Engineering

3 Projects

Full Stack Developer-Twitter-like Social Media App (MERN)

- Built a full-stack social media platform with posts, likes, comments, and user follow features
- Implemented JWT-based authentication with protected routes
- Designed RESTful APIs and optimized MongoDB queries for scalability
- Deployed on Render for public access
- [Live](#) | [GitHub](#)

Machine Learning Developer-Diabetes Prediction System (ML)

- Built and evaluated multiple ML models; selected Logistic Regression based on ROC-AUC
- Performed data preprocessing, feature scaling, and EDA
- Deployed interactive prediction app using Streamlit
- [Live](#) | [GitHub](#)

Full Stack Developer-Basic MERN CRUD App

- Developed a CRUD-based full-stack application to practice MERN fundamentals
- Implemented REST APIs and frontend state management
- Deployed on Render
- [Live](#) | [GitHub](#)

4 Technical Skills

Languages: Python, JavaScript, C, SQL, C++

Frameworks: React, Node, Express, MongoDB, Pandas, NumPy, Scikit-learn

Tools: Git, GitHub, VS Code, Render **Other:** Linux, REST APIs, JWT, Agile

5 Achievements

- SIH 2024 National Finalist
- Global Rank of 936 in CodeChef Starters 211 (Max Rating: 1408)
- 200+ LeetCode problems (Max Rating: 1611)
